

# Assimilated Technologies (S) Pte Ltd

## GOVERNMENT

Improve citizen services with faster, more accurate and more secure processes. Combining our ID document scanners, signature pad, biometric scanners with our government solutions can help to:

- Confirm authenticity of citizen's ID documents
- Reduce paper work
- Speed up processing time
- Decrease manpower cost
- Bring services closer to citizen's because of portability
- Secure border by screening for watchlist/blacklist

## HOSPITALITY

Help facilitate a smooth check-in process for your guests and meet government regulations. Our adaptable ID document scanner solutions can help to:

- Speed up the guest check-in process
- Retain accurate and detailed guest records
- Verify guests' ages and confirm validity of guest ID documents
- Project a secure image of the hotel to the guest
- Comply with local government regulations

## FINANCIAL

Project a safe, secure image and provide faster transactions. Our signature pad, biometric solutions, ID document scanner and authentication solutions can help to:

- Speed up new account registration
- Retain accurate and detailed guest records
- Meet the Bank Secrecy Act and anti-money laundering regulations
- Confirm validity of customer ID documents
- Verify the identity of customer using biometrics
- Retain customer signature and biometrics
- Prevent bank fraud
- Authenticate bank notes

Improve citizen services  
and improve security

Seamless check-in  
and peace of mind

Safety for guest,  
more security for you
