

i-Guard

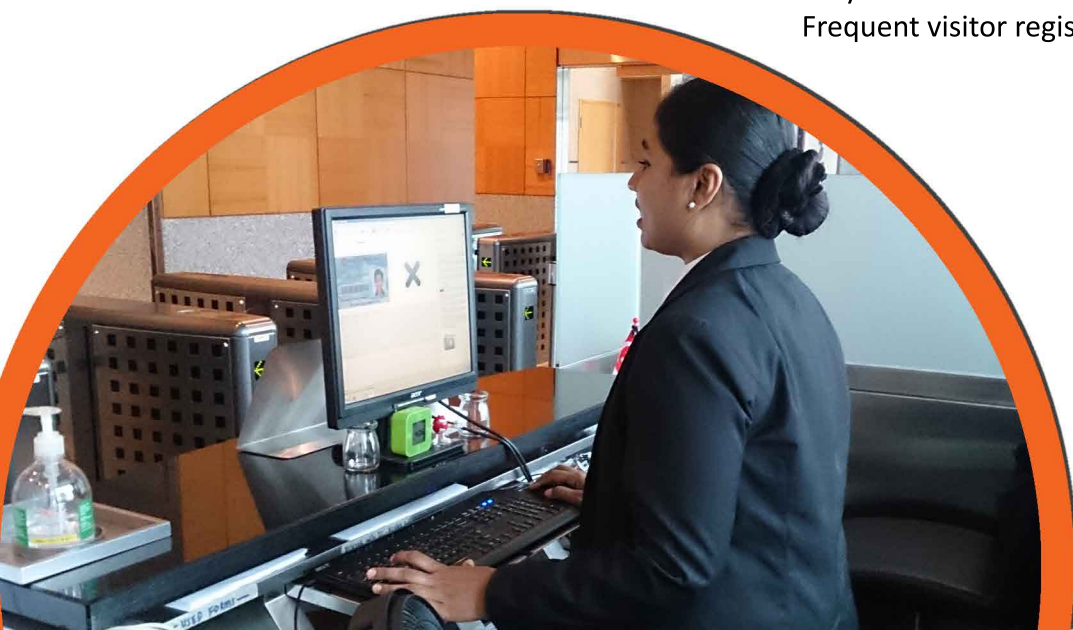

i-Guard is an advanced Visitor Management System meant for managing and maintaining the record of all the visitors, contractors and staff that enters the company premises. I-Guard system improves building security and access control by monitoring people who entering the building and what areas are being accessed.

Features:

- Fast and auto triggering of Document ID capture
- Auto classification and identification of Document ID
- Auto population of visitor information into the system
- Ability to interpret 1D & 2D barcode
- Ability to generate report in real time
- Ability to create multiple user
- Stand alone or client server implementation
- Integrable to Access Control Security System
- Fingerprint login

Benefits:

- Fast and accurate
- Paperless (cost effective)
- Easy to use
- Frequent visitor register faster

The i-Guard VMS is ideal for:

- School, University & Healthcare Campuses
- Hospitality & Entertainment Venues
- Municipal & Government Institutions
- Financial & Corporate Facilities
